NUMBER 44

## This Week

by Arthur Brisbane

Sits Up, Feels Better

The President's Plans

Tainted Football

Another Big Airboat

Wall Street felt better, sat up and took notice, finally. The question is not "What has happened to those that gambled, in spite of warnings?" but "What if anything has happened to the nation, and its general prosperity?"

No buildings were burned down, no industries have died, no mines, railroads, steel plants have vanished. Paper profits have been reduced to scraps of ticker tape. That's all.

And, as one solemn banker said, "Many will now do more useful work than watching the ticker or the brokers' blackboard."

The most pathetic were the women speculators, amazed to learn that prices can go down.

Chicago describes them weeping hysterically in La Salle street.

Scientists ask what has become of the Leonids, a swarm of meteors that have appeared in dazzling brilliancy about once in thirty-three years for more than a thousand years past.

They failed to come around when last due, and there is no sign of them now.

Our giant neighbor, Jupiter, may have absorbed them, as whales with wide open mouths absorb tiny creatures in the ocean, since battleships are now merely targets for submarines and airplanes.

Big things live on little things, even in cosmic space.

President Hoover's plan for a great system of inland waterways realizes, in prospect, the hope of those that welcomed an able engineer to the White House.

Total expenditures planned will amount to \$625,000,000, and every dollar spent will pay for itself ten times over.

The President observes that the annual increase in expenditures will amount only to the cost of one-half of one battleship.

The President might have added that in modern war the whole of one battleship would be worth less than one-tenth of one cent, since battleships are now merely targets for submarines and airplanes.

The Carnegie foundation says college football is "tainted with money." Free teaching and cash bonuses are given to young men that can kick hard, run fast and tackle bravely.

It would be more pleasing if colleges sought great teachers as eagerly as they seek great quarterbacks.

But no great harm is done. The games and great crowds arouse young men's interest in college life and give college education to young men from rolling hills, and rear ends of ice wagons, that might otherwise remain uneducated.

Progress in flying advances rapidly. In Europe, a few days ago Germans showed a gigantic hydroplane with twelve engines, flying, carrying 100 passengers and crew.

Great Britain is building a plane of the same size, a triplane instead of a biplane, also with twelve engines, to go faster.

Henry Ford was the first to talk about a "2-engine plane" to carry 100 people, with a machine shop on board.

The Germans and the British build the planes.

The Swiss parliament, elected by a moral and serious nation, proposes a law to punish blasphemy, suggests six months in prison for those that "orally or in writing insult God."

Blasphemy should be punished because it sets a bad example and shows want of respect for the feelings of others.

But it is possible for any two-legged human microbe on this planet "to insult God?"

If the nice proposed to punish any mouse insulting Edison, you would say, "Nice, don't worry, you can't insult Edison."

How much less can any man insult the Creator of the Universe?

## SCHOOL OFFICERS MEET NOV. 5TH

The school officers' meeting for Crawford county will be held on Tuesday, November 5 in the court house in Grayling. The meeting will begin at 9 o'clock Central Standard time.

It is the duty of all members of school boards to attend these meetings. All necessary traveling expenses of all members of school boards shall be paid from the general fund of the district.

School officers' meetings are held but once in each two years.

In order that these meetings may accomplish the object for which they are held, it is necessary that all school officers be present. At your meeting this year all phases of school law, the administrative work of school officers, and topics of general interest to school officers, teachers, and patrons will be discussed. These school officers' meetings afford an opportunity once in two years for all school officers, county commissioners of schools, and a representative of the Department of Public Instruction to meet and discuss personally those questions and problems that have to do with the work of the schools.

Mr. Roy Noteware, Assistant Superintendent of Public Instruction, will conduct the meeting. He will discuss school law, state administration and topics of general educational interest. The county commissioner is expected to take some of the time in discussing with his school officers the questions and problems that have to do with the work of the schools of the county.

This meeting will begin promptly at 9 o'clock a. m. Central Standard time and close at 11:45. Then we shall try to have the afternoon session begin at 12:45 and close at 1:45. Please remember the date, November 5th.

JOHN W. PAYNE, Commissioner of Schools.

CAN'T EAT PAINT

A one-month-in-the-summer festival asked what Grayling needed most replied, "Paint." You can't eat paint unless you're a Billy goat. Who wants to be a goat of any kind? This man was here in summer; everybody working and happy. We don't need paint now we need industries, "work," "wages," "good," "new," "warm clothing," "good beds."

What is the matter with the rent lords? Do they need glasses? Maybe they thought paint was needed and used paint. If they were mistaken, why ask the other fellow to pay for it?

Industries going to lower rent localities. What is the matter? This is your town. Ask questions! Find out!

HOOVER TO THE RESCUE

To avert a nation-wide panic the President of the United States was forced to step into the breach and assure us the nation was financially solvent and fairly prosperous.

His was the hand stretched out to calm the storm that had already swept away billions of dollars in profits (paper profits from the lamb's clothing) with Wall Street, and was threatening to continue until every legitimate business might be submerged in this heavy howl of the tide.

In doing this President Hoover is unconsciously infusing fear for prosperity. He is well aware that with our gambling this country is in no immediate danger but he knows also the time has come when the nation should be content to get its feet back on the ground, quit gambling and go to work.

Good advice—if well taken.

Architect's drawing of world's tallest building, first high, that is being erected in New York for City Bank Farmers Trust company. 2—Tractor hauling supplies for relief of people in Oregon where rail transportation was destroyed by forest fires. 3—Mr. and Mrs. Henry Ford, Mr. and Mrs. Thomas A. Edison and President and Mrs. Hoover at Detroit celebration of light's golden jubilee, on replica of old train on which Edison was a news butcher.

## WHEEL CO. TAKES OVER GAYLORD PLANT

We are glad for the people of Gaylord in the promised opening of the old Novelty Works for active operation. The Million Spring Wheel Co. is about to start the manufacture of their product there. In last week's edition of the Grayling Herald Times it tells of the affair as follows:

It now appears that the old novelty works, which has been idle for the past seven years, will begin to show activity in the near future, manufacturing a truck commodity of which there is a great promise, according to Mr. Linendoll, who brought many letters of commendation with him from Los Angeles a month ago when he appeared before the Chamber of Commerce to explain his proposition.

A wheel was shown and explained, and though it is an entirely new departure to anything in the past, there is real possibility of its being a success. The wheel is constructed of two solid disks bolted together, instead of spokes there are about twenty tension springs. The tire is of solid fabricated rubber, guaranteed to outwear anything yet placed on the market.

In explaining the proposition, Mr. Linendoll spoke of the other spring wheels that have been attempted, pointing out their weak points, and how it has been overcome in this product. He claims for it that it will ride with the ease of a pneumatic tire, at all times. With the pneumatic tire it seems that a great air pressure must be carried when a truck is loaded heavily. When empty the truck is a hard riding vehicle, but with his wheel, the springs take the place of air, and give the same riding comfort as with a load.

These wheels have been made in the west and tried out. Men who have used them are more than satisfied with the product, and predict a large demand as soon as their advantages are known.

Last week Mr. Linendoll and son Bert Linendoll were in Grayling where they completed arrangements for taking over the plant. John Harrington has been employed to take over the repair work of the building, and it is said that new glass and roofing has been ordered to take the place of the broken panes of glass and the leaky roof.

## THE REPORT CARD

(By Grayling Public Schools)

Seniors Give Halloween Party

The High School Gym was the scene of much merry-making last Friday evening when the Senior class gave the first public party of the school year—a Halloween masquerade dance.

The gym was appropriately decorated in orange and black crepe paper with Halloween figures and corn stalks scattered about.

The dance began promptly at 9 o'clock and continued until 12 o'clock. About the middle of the evening the grand march was led by the four Tars, Mary Esther Schumann, Elizabeth Matson, Pauline List and Jane Keyport. Then the prizes were awarded to Mr. and Mrs. Hurl Deckow, the best dressed couple.

Lunch was served at 11 o'clock, consisting of pie, doughnuts and cider. The pies were donated by the mothers of the Seniors.

There were some very clever costumes in all, a few of the center of attractions being Betty Welsh, Elaine Reagan, Mr. Hill and Miss Arnold.

The dance proved a huge success in all ways for all enjoyed themselves and a new sum was added to the Senior treasury.

Student Council Reorganized

The Student Council of the G.H.S. has been reorganized this year. Last Thursday, representatives from each grade were elected, one from the student body at large and two elected by the faculty. The fifteen representatives are as follows:

Members at Large—Rudolph Harrison, Elizabeth Matson. Senior Representatives—Helen Woodburn and Donald Koivone. Junior Representatives—Loretta Sorenson and Jerome Kessler. Sophomore Representatives—Fern Lovely and William Foley. Freshman Representatives—Myrton and Wilma Burrows.

Eighth Grade Representatives—Mildred Engel and Emil Kraus. Seventh Grade Representatives—Clara Atkinson and Donald Gothro. Monday the first meeting was held to elect officers. Elizabeth Matson, Pres.; Myrton Burrows, Vice Pres.; Loretta Sorenson, Sec.; Donald Koivone, Treas.; Sergeant at Arms, Rudy Harrison.

Meetings will be held according to parliamentary rule. Wednesday night will be the first meeting of importance. The Student Council is starting out in the right spirit this year and it is hoped that Grayling's count (Continued on last page)

## DO'S AND DON'T'S FOR DEER HUNTERS

Warnings, cautions, and don'ts for deer hunters going into the upper peninsula for this year's season will be displayed on big placards in the cabins of the three state ferries at the Straits of Mackinac. The placards have been prepared by the Department of Conservation and will be posted with the cooperation of the State Highway Department.

The placards list information as to what a deer hunter may do while he is in the woods; and what he may not do; what he should do if he comes lost; and display slogans that it is hoped will help to reduce the annual list of fatalities.

"Your license does not permit you to: Use artificial light; use dogs in hunting; kill a doe; kill a fawn; hunt a deer while it is in the water; hunt from your automobile; have venison in your possession more than 30 days after the close of the season; hunt on private property without owner's permission; have loaded gun in your car."

"Don't forget to: tag your deer; wear your license button; unload your gun before you enter camp or an auto; carry a compass; says a section poster.

Advice to those who are lost is contained on a third card. It says: "If you get lost, don't get excited. You will probably be able to find a fire tower or its telephone line. Follow the wires. They will take you to town. If it is dark, build a fire and wait until morning. Don't tire yourself out walking in circles. Always carry a compass and matches."

"Be sure it has antlers before you shoot," and "Some of you may not come back if some are careless," are among the slogans listed on the posters.

A large percentage of the deer hunters going to the upper peninsula enter by way of the state ferries.

Next to the liberal advertiser and the cash-in-advance subscriber, an editor's best friend is the person who furnishes him suitable news items. Tell us anything you know in the way of local happenings worth communicating to the public. Don't take it for granted that we'll find out everything anyhow.

## ANNUAL E.M.T. MEETINGS ATTRACT BIGGEST ATTENDANCE IN TWO BODIES' HISTORY

The annual meetings of the East Michigan Tourist association and the North Eastern Michigan Development bureau, held at Bay City, October 24, brought together the largest and most enthusiastic meetings in the history of the two organizations. The annual joint banquet of the two bodies, held in the evenings at the Wenonah Hotel, brought out a large gathering and the seating capacity of the auditorium was tested. Comments heard on every side were unanimous that both the meetings and the banquet were the most successful ever held.

The North Eastern Michigan Development Bureau members convened in the morning at the Log Office, heard reports of officers and elected officers for the ensuing year. It was voted to make all past presidents ex-officio members of the executive committee. These are James R. Snoddy, Presque Isle; John Yuill, Otsego; Robert Rayburn, Alpena; Herman N. Butler, Iosco retiring president, who presided at the meeting.

H. S. Karcher, Rose City, was elected president. Other officers elected were: First vice-president, Marius Hanson, Grayling; second vice-president, John C. Macgregor, Harrisville; treasurer, H. A. Chamberlain, Standish; secretary-manager, T. F. Marston, Bay City.

The officers elected by the East Michigan Tourist association were: President, Floyd A. Allen, Detroit; first vice-president, J. E. Richards, Alpena; second vice-president, Edward Schust, Saginaw; third vice-president, Al H. Weber, Cheboygan; fourth vice-president, Herman N. Butler, East Tawas; secretary-treasurer, T. F. Marston, Bay City; C. M. Bullard, Flint; and W. J. Antcliff, Brooklyn, and H. A. Bauman, Grayling, with the officers comprise the executive committee.

Following the meetings of the two organizations, there was, in the afternoon, an open forum. The forum was addressed by E. A. Hyer, of the State Conservation Department and Frank R. Johnson, Prudenville. After the forum meeting the 200 representatives present gathered outside the log office where a group picture was taken. The banquet in the evening at the Wenonah Hotel was the customary unique affair. Emory Farnell, the one-man band of Detroit, supplied the music. Following the banquet, the meeting convened as the Board of Supervisors of Nowhere with Michael Gorman, managing editor of the Flint Journal as chairman. From this point on the evening was glitzed with entertainment.

Mr. Gorman's capability as a toastmaster received many encomiums. His bubbling humor, versatility and scholastic attainments made him an ideal person for the position as the buoyant, unrestrained and unreined administrator of an incredible board of supervisors.

The proceedings of the board of supervisors enabled the toastmaster to cleverly introduce the speakers of the occasion who were: R. G. Schuchman, Supervisor, Huron National Forest, Bay City; Arthur W. Stace, Ann Arbor; Grover C. Dillman, state highway commissioner, Lansing; State representative, A. C. MacKinnon, Bay City; Floyd A. Allen and Louis C. Crampton, Lapeer, the main speaker.

Interspersed throughout the supervisor's session were vaudeville acts which included Dawn, Hamilton and Eva, three girls known in big time vaudeville as "We Blondes", and Helen Simkins, pianist, who has played over such radio stations as WWJ and WJR. The partiality of one of the blondes for some of the gentlemen in the audience caused the toastmaster manifest irritation.

One of the very attractive features of the entertainment was a ballroom dance staged by Miss Neenah Tyler and Millard Hahn, with Miss Alice

## Michigan Memorial Church

John Wilfred Greenwood, Minister

Sunday, November 3, 1929

10:30 a. m. "Our Heritage."

7:30 p. m. "The Sanctuary."

Dr. F. B. Johnston of Detroit will preach at both services. Dr. Johnston is our popular Secretary of the Board of Conference Claimants, and comes to us at the suggestion of the pastor.

He will also speak in Church School and League.

Faint Yet Pursuing

I want to let go. But I will not let go.

I am sick it is true, and discouraged and blue;

Worn out through and through

But I will not let go.

I want to let go. But I will not let go.

I am poor and perplexed, disturbed and vexed.

Care not what comes next. But I will not let go.

I want to let go. But I will not let go.

Though joys are all flown. Life hath left me alone.

For bread there's a stone. But I will not let go.

I want to let go. But I will not let go.

There is work to be done, a race to be run,

A crown to be won and I will not let go.

I want to let go. But I will not let go.

There are battles to fight by day and by night,

For God and the right, and I will not let go.

I want to let go. But I will not let go.

I never will yield. What! Lie down on the field.

And surrender the shield? No, I will not let go.

I want to let go. But I will not let go.

Be this ever my song: "Against legions of wrong,

O God, make me strong, that I may not let go."

—Selected.

DeWale at the piano and James B. DeWale as singing accompanist. All are Bay Cityans.

Miss Loraine Buden, Beaver Lake, daughter of Dr. J. H. Buden, was a guest of honor and appeared on a small stage in her costume as Miss Michigan, a title earned at Baltimore last month.

Miss Alfrida Petoskey, Saginaw, known as "Miss Saginaw," posed in the floodlights as a replica of an advertising blotter which the tourist association will issue in the spring for distribution by business houses.

Arenac had the largest delegation, 39 coming from that county. One of the outstanding delegations in numbers came from Lapeer. The Otsego county board of supervisors had the largest representation, nine of the 13 supervisors being present, and seven being present from the county. Genesee county sent 12; Lapeer sent 21; Ogemaw and Tuscola each sent 22; and Crawford county sent their full board of six members.

112 years ago was the year when out a summer. Not many of our citizens remember it but history tells that in 1817 first occurred every month in the year. Ice formed more than an inch thick in May. Snow fell to a depth of three inches in June. Ice formed to a thickness of window panes in New York on the 5th of July. The corn crop never matured. Seed corn for 1817 was of the crop of 1815.

## Local Happenings

Mrs. John Zeder and son Jack spent the week end in Bay City.

Russell Peterson and Lester Olson spent Thursday in Bay City.

Sam Colten of Detroit was here over Sunday on a hunting trip.

Miss Rosalyn Lewis visited at her home in Gaylord over Sunday.

Daniel Greens Comfy slippers are the world's best. Olson's Shoe Store.

Miss Marguerite Montour spent Thursday in Bay City visiting friends.

Don't forget the American Legion Auxiliary bake sale on November 8th.

Mr. and Mrs. Henry Bousson visited relatives in Standish and Pincinn Sunday.

Mrs. Dorothy Johnson and Elsie Mae LaMotte went to Bay City Saturday returning Sunday.

Mrs. George Burke left last Wednesday for a few days visit in Bay City, Detroit, and Toledo.

Mr. and Mrs. George Henning of Trout Creek, Michigan visited Mr. and Mrs. Fred Lamb yesterday and today.

Holzer Hanson has returned to his duties at the bank after a two weeks vacation spent in Detroit and other places.

Morgan Paige enjoyed a visit over the week end from his daughter Miss Marion Paige and Mr. Barron Smith of Traverse City.

Buy shower boots for women and children in black, gunmetal and brown at Olson's.

Remember ladies, Mr. Bell with Levine dresses, Saturday, Nov. 2, at Cooley's Gift Shop.

The Saginaw Amusement Club will give a dancing party at Temple Theatre Saturday night, Nov. 2. Everyone cordially invited.

Fred Malafant of Cheboygan visited at the home of his nephew, Wilfred Laurant, Sunday. Mr. Malafant is city clerk in Cheboygan.

There will be a regular meeting of Grayling Chapter O. E. S. No. 83 on November 9th. There will be initiation and report of the grand chapter meeting.

Francis Brady was home from Detroit over the week end visiting his parents, Mr. and Mrs. John Brady. Francis is a student at the University of Detroit.

The I. O. O. F. will give a card party Friday night at the I. O. O. F. temple. Everybody welcome. A small admission charge will be made to defray expenses.

Mothers, don't forget to bring your children to Room 10 at the school next Wednesday, Nov. 6 for the second dose of toxin-antitoxin. Hours 8:00 to 11:00 o'clock.

Mrs. George L. Alexander and son Fred motored to Midland Tuesday, returning Wednesday. They were accompanied by Mrs. Thomas Cassidy and daughter Mrs. Victor Thelon, who visited relatives there.

Mr. and Mrs. Julius Nelson and daughter Margaret and Mr. and Mrs. Anthony Nelson motored to Cadillac Sunday where they met Miss Olga who was returning from a visit with her sister, Miss Anna in Grand Rapids.

Mrs. Hugh Kelly, daughter Margaret and two sons Francis and Dennis of Grand Rapids visited the Thos. Cassidy and Louis Kessler families from Thursday until Sunday. Mrs. Kelly is a sister of Mr. Cassidy and Mrs. Kessler.

Misses Beth Deming and Violet Williams of the Mercy Hospital Training School left for Detroit last night where they will complete their course in nursing, putting in three months at the Children's Free Hospital and the remaining time at Grace Hospital.

Our Gang sewing club met at the home of Mrs. Paul Feldhauser on the AuSable last Thursday afternoon. The ladies visited and played games and Mrs. Feldhauser served a very delicious lunch. The ladies said on leaving they would all like to be invited to come again.

Mrs. B. J. Callahan and son Jack were in Cheboygan this week where the former attended a reunion of her sisters. Besides Mrs. Callahan they included Mrs. Thomas Brennan of Saginaw, Mrs. Edward Sargent of Bay City, Mrs. J. Sullivan of Mackinaw, and Mrs. J. C. Rittenhouse of Cheboygan.

The shaving pit at the Kury & Hanson flooring plant caught fire last Sunday evening and it was necessary to call the city fire department to help extinguish the flames. Quite often the shavings catch fire but are easily extinguished, but last Sunday it had been smouldering for several hours and resulted in quite a blaze. There was no material damage done.

As we go to press the 7th Annual Top O' Michigan Potato and Apple Show is being held at Gaylord. From all indications this Show will surpass any previous Show in its history. The 14-H Club buildings on the old Otsego County Fairgrounds has made possible the enlargement of this Show. A brief report of the Show will be contained in next week's papers, with a complete supplement covering all details of the Show to be issued on November 14.

Of interest to the people of Grayling will be the announcement of the engagement of Lewis Michelson, son of Mr. and Mrs. Frank Michelson of Detroit and Miss Constance Atwater Stanbrough, daughter of Mrs. Duncan Stanbrough. The announcement was made at a luncheon given by Mrs. Swayne at the new Colony club Saturday to a party of 30 guests. The nuptials are being planned for November 21st. Miss Stanbrough is a graduate of Sweetbriar college in Virginia. Lewis is a graduate of the U. of M.

Of interest to many Grayling friends will be the news of the marriage of Miss Ellen Johnson, daughter of Mr. and Mrs. Wilhelm Johnson of Gerriah Township, Roscommon to Mr. Carl Carlson. The ceremony took place on October 16th at Gaylord, Rev. Osborne, pastor of the Baptist church tying the knot. The young couple returned to Roscommon Monday after a honeymoon spent motoring in the Upper Peninsula and will be at home in that city. Mr. Carlson is engaged in the hay and feed business in Roscommon and is also interested in a similar business in Grayling which is in charge of Andrew Brown. The bride is a graduate of Mercy Hospital Training School for nurses.

The funeral of Harold Thomm, who passed away last Thursday was held Monday morning with services at Michelson Memorial church at 9 o'clock. Rev. J. W. Greenwood officiated while Mr. E. H. Webb and Mrs. C. G. Clippert rendered a couple of duets very beautifully. Mr. Thomm being a member of the Masonic Lodge of Port Arthur, six local brother Masons acted as pallbearers. Following the services the remains were taken to Wolverine where the Masonic lodge of that place took charge. Interment took place in the Wolverine cemetery. Mr. Thomm was born April 28th, 1886 in Detroit and made his home in St. Joseph where he was chief dispatcher for the Canadian National railroad. The deceased is survived by his wife who was formerly Miss Blanche Cardinal.

Tonight is Halloween.

When you think of rubbers think of Olson's.

Be sure and attend the dance Saturday night at the Temple Theatre given by the Saginaw Amusement Club.

Marius Hanson is assisting in the Gidley & Mac drug store in East Jordan this week, having gone to that place last Saturday.

Miss Helen Babbitt returned home Saturday from a ten days visit in Detroit. She will resume her duties at the Grayling 5c to \$1.00 store next Monday after a three weeks vacation.

All signs of summer haven't disappeared as yet according to Mrs. Charles Fehr and Mrs. William Powell who saw a rattlesnake down at Sunrise Club Sunday. They succeeded in killing it.

Frank Dress of Edmore was in Grayling the first of the week, while here renting his home on Park Street to Stanley Flowers of West Branch who is a new operator at the local Western Union office.

George Miller and son George Jr. were in Flint over the week end to visit Mrs. Miller, who is at the home of her daughter Mrs. Edward King, where she is improving slowly from an injury she received this spring.

Mrs. Emil Niederer and daughter, Miss Helen Pond, are leaving this afternoon for Bay City to be in attendance at a Halloween party given by Mrs. Joseph Letzkus of that place.

Miss Iva Granger invited a number of young ladies to her home last Friday evening to meet Mrs. Green of Milwaukee who has been spending a couple of weeks visiting her husband, Dr. Green. The evening was spent playing cards and other games, after which the hostess served a delicious lunch.

Local Council Knights of Columbus held installation of officers last evening at the American Legion hall. Mr. Emmett Richards, district Deputy of Alpena was the installing officer. Mr. Richards is editor of the Alpena News and tonight he is to act as toastmaster at the Top O' Michigan Potato and Apple Show banquet at Gaylord.

Sister M. Josephia and Sister M. Theodora, both of whom were on the management at Mercy Hospital a few years ago, but who now are located at St. Mary's Hospital, Grand Rapids, were here over Sunday. Having hosts of friends in Grayling they enjoyed visits and calls from many friends while here. They returned to Grand Rapids Tuesday and were accompanied as far as Cadillac by Misses Irene McKay, Nina Sorenson and Margrethe Hemmingson.

Twelve young ladies and gents were guests of Misses Margaret Fehr and Clara Bugby last evening at a delightful Halloween party given at the home of the former. The home was in Halloween dress with black cats and owls lurking in the corners, and pumpkin faces, bats, and witches finding conspicuous places. For amusement stunts were performed after each guest had drawn from a punchboard-telling them what to do; fortunes were found in peanuts and other games were played. The hostesses served a delicious lunch.

The Sales cottage at Lake Margrethe was the scene of a Halloween party Monday evening, given by Mrs. Frank Sales and Miss Marian Reynolds. The guests, numbering fourteen, came masked and upon arrival were led through the dark haunted house by two ghosts, ending up in the living room which was nicely decorated with fall leaves, jack o'lanterns and Halloween novelties. Games and contests were enjoyed during the evening, for which prizes were given. Miss Ferne Armstrong was awarded the prize for the best costume. The hostesses served a lovely lunch, carried out in true Halloween style.

The Michigan Public Service Co., has added another town and another hydro-electric plant to its string of holdings. A deal has been completed for the purchase of the East Jordan Electric and Power company. One of the first things on the program of the company relative to its new property was to be the tying in of the East Jordan plant with the 23,000 volt transmission line which extends from Cheboygan southward. As a result, power from East Jordan can be fed to other points of the company's territory as occasion needs. Gaylord Herald Times.

Of interest to many Grayling friends will be the news of the marriage of Miss Ellen Johnson, daughter of Mr. and Mrs. Wilhelm Johnson of Gerriah Township, Roscommon to Mr. Carl Carlson. The ceremony took place on October 16th at Gaylord, Rev. Osborne, pastor of the Baptist church tying the knot. The young couple returned to Roscommon Monday after a honeymoon spent motoring in the Upper Peninsula and will be at home in that city. Mr. Carlson is engaged in the hay and feed business in Roscommon and is also interested in a similar business in Grayling which is in charge of Andrew Brown. The bride is a graduate of Mercy Hospital Training School for nurses.

The funeral of Harold Thomm, who passed away last Thursday was held Monday morning with services at Michelson Memorial church at 9 o'clock. Rev. J. W. Greenwood officiated while Mr. E. H. Webb and Mrs. C. G. Clippert rendered a couple of duets very beautifully. Mr. Thomm being a member of the Masonic Lodge of Port Arthur, six local brother Masons acted as pallbearers. Following the services the remains were taken to Wolverine where the Masonic lodge of that place took charge. Interment took place in the Wolverine cemetery. Mr. Thomm was born April 28th, 1886 in Detroit and made his home in St. Joseph where he was chief dispatcher for the Canadian National railroad. The deceased is survived by his wife who was formerly Miss Blanche Cardinal.

Mr. H. M. Bell will show Levine dresses at Cooley's Gift Shop Saturday, Nov. 2.

They will be guests at the Letakus home, the remainder of the week and Sunday will be joined by Mr. Niederer returning home that day.

Ladies, you may select your own gown from an assortment of about 150 of the newest models, Saturday, Nov. 2 at Cooley's Gift Shop. Levine models. None better.

Mr. and Mrs. L. J. Martin and son Edward were in Owosso from Thursday until Monday visiting friends. While there Mr. Martin enjoyed pheasant hunting getting the limit of birds.

For Statuary Hall

This heroic bronze of Jefferson Davis, the work of August Lukeman, is to be placed in Statuary Hall in the Capitol in Washington, as the gift of Mississippi, the home state of the President of the Confederacy.

## DIPPING INTO SCIENCE

Change in Measurement—A heel foot has not always been 12 inches in length. It originally meant the length of the human foot. The standard, however, has varied in different countries. England and America long ago adopted the 12-inch foot. This length was first established in England under Henry I. His arm was declared the standard yard and the foot was then made one third of a yard.

## Want Ads

WANTED TO BUY—A second hand heating stove that will burn wood or soft coal. Leave word at Avalanche office.

STRAYED—To my place in Beaver Creek Twp., a black heifer. Write Bert Confer, Roscommon, Mich., Route 1, 10-31-3.

SECOND HAND FURNITURE—wanted at once. Must be suitable for light housekeeping. What have you to offer? Make a list of the articles you would sell and notify O. P. Schumann at Avalanche Office at once.

SWEET CIDER—made from sweet and winter apples. Sweet and delicious. 30c per gallon. Leave orders at Len Collens', Francis McKeown.

LOST—In Grayling on Oct. 8, a round brooch, engraving on face of same, hook on back to lany watch. Was keepsake of deceased mother. Return to Avalanche office and receive reward.

STATE OF MICHIGAN  
The Circuit Court for the County of Crawford, In Chancery.  
Agnes Bissonette, Plaintiff, vs.  
George E. Bissonette, Defendant.  
Suit pending in the Circuit Court for the County of Crawford, In Chancery.

It satisfactorily appearing to this Court by affidavit on file that the defendant, George E. Bissonette, is a nonresident of the State of Michigan, and that his residence is unknown to plaintiff, on motion of Merle F. Nellist, attorney for plaintiff, it is ordered that the said defendant, George E. Bissonette, cause his appearance to be entered in this cause within three months from the date of this order, and in case of his appearance that he cause his answer to plaintiff's bill of complaint to be filed and a copy thereof to be served upon the plaintiff's attorney within twenty days after service on him of a copy of said bill, and notice of this order, and that in default thereof that said bill be taken as confessed against said defendant.

And it is further ordered that within twenty days after the date hereof, of the said plaintiff cause a notice of this order to be published in the Crawford Avalanche a newspaper, printed, published and circulating in said county of Crawford, and that such publication be continued once in each week for six successive weeks or that she cause a copy of this order to be served personally on said defendant, at least twenty days before the time above prescribed for his appearance.

Dated October 19, 1929  
GUY E. SMITH,  
Circuit Judge.  
Merle F. Nellist,  
Attorney for Plaintiff,  
Grayling, Michigan. 10-31-6

# IMPORTANT Announcement

OF INTEREST TO EVERY HOME  
WITHOUT ELECTRICITY

## Opening Display and Sale

of the New INSTANT-LIGHT

# ALADDIN

KEROSENE MANTLE LAMP

Now for the first time in homes where kerosene must be used for lighting, one may enjoy all the comforts and blessings of a perfectly lighted home. This is now possible thru the invention and perfection of the new Instant-light Aladdin kerosene Mantle Lamp—the lamp whose light is just like sunlight and even better in quality than electricity. It will flood a big room with the softest, mellowest, brightest light—a delight to the eyes of the aged—an assurance against ruination of the eyes of the young. No longer need a kerosene lighted home be gloomy and cheerless after nightfall. The new Instant-light brings sunlight at night—anywhere—everywhere. Beautiful hand decorated glass and parchment Shades, too.

## Features of This Remarkable Modern White Light

Burns common kerosene (coal-oil). Lights instantly. Gives a modern white light equal to 10 ordinary lamps. Absolutely safe. Burns 94% air. The most economical of all lights. No odor, smoke, noise or trouble. No generating or waiting; a match and a minute that's all. All styles; table, hanging, bracket and floor lamps in nickel and bronze. Endorsed by world's highest authorities.

The Aladdin can also be secured in Floor-Lamp style; something new and heretofore unobtainable. The Aladdin Floor Lamp is equipped with beautiful parchment shades and the metalware is finished in gold and black, or gold and blue. It will modernize any kerosene lighted home.

## VILLAGE ORDINANCE

STATE OF MICHIGAN  
65TH LEGISLATURE  
SESSION OF 1932Introduced by Mr. Culyer,  
Bill No. 393, File No. 288.  
HOUSE ENROLLED ACT NO. 129  
An act to regulate the use, handling, storage and sale of fuel oil, and the arrangement, design, construction and installation of burners, tanks and other equipment for the burning of fuel oil for heating purposes in cities and villages adopting the provisions of this act. The People of the State of Michigan enact:

Section 1. This act shall be in force and effect in such cities and villages as may, by a majority vote of the legislative body thereof, adopt its provisions. The provisions of this act relative to the storage, handling and sale of fuel oil having a flash point above one hundred thirty degrees Fahrenheit shall apply only to the use of such fuel oil for burners as is specified herein.

Section 2. For the purpose of this act:

(a) "Fuel oil" shall mean any liquid above and fuel having a flash point above one hundred thirty degrees Fahrenheit.

(b) "Fuel oil burners" shall mean any device, including burners, motors, piping, valves and other equipment designed and arranged for the purpose of burning fuel oil for heating purposes.

(c) "Tank" shall mean any container for such fuel oil having a capacity of more than twenty-five gallons, and directly or indirectly connected with fuel oil burners.

(d) "Auxiliary tank" shall mean any tank between the storage tank and the burner delivering oil by gravity or pressure to the fuel oil burner or burners.

(e) "Storage tank" shall mean any tank for the storage of oil, connected through some approved means of suction feed, directly to the fuel oil burner or burners through approved auxiliary tank.

(f) "Department of buildings and safety engineering" shall mean the department of buildings and safety engineering of such city, or such other department as may be designated by the legislative body thereof.

(g) "Bureau of safety engineering" shall mean the bureau of safety engineering of the department of buildings and safety engineering of such city, or such other bureau as may be designated by the legislative body thereof.

Section 3. Before any fuel oil burners, tanks and other equipment containing thereto shall be installed within such city, the owner of such premises or his agent, shall obtain from the permit department of the department of buildings and safety engineering, a permit for the installation of such fuel oil burners and equipment and for the storage and use of fuel oil for the operation thereof.

Upon issuing such permit the said department shall attach therewith a temporary tag to be attached to the fill pipe of the tank of such equipment until the bureau of safety engineering shall cause such equipment to be inspected, and if found to conform with this act, a permanent metal tag, properly numbered, shall be affixed by the inspector.

The owner of premises on which fuel oil burners have been installed previous to the date on which this act becomes effective shall obtain from the permit department of buildings and safety engineering, within six months thereafter a permit for the storage and use of fuel oil for the operation thereof. Such permit shall be issued by the department of buildings and safety engineering when such fuel oil burners shall have been inspected by the bureau of safety engineering and found to be reasonably safe.

The fees for permits required under the provisions hereof shall be designated by the board of rules.

Section 4. No person or persons, firm or corporation, shall supply with fuel oil any tanks or containers for fuel oil burners unless such fuel oil burners and equipment shall have been approved as provided herein and permit tag attached to the fill pipe of such tank or containers in the manner herein specified.

Section 5. Fuel oil for equipment installed under this act shall have a flash point of not less than one hundred thirty degrees Fahrenheit and no oil or liquid may be used, which when tested in the open air at a temperature below one hundred thirty degrees Fahrenheit, or below one hundred degrees Fahrenheit, when tested in a closed cup test, gives forth inflammable vapor or gas.

In determining the flash point of oil, a test as required by the department of buildings and safety engineering shall be authoritative. Fuel oil shall not be mixed or blended except as a storage tank under close supervision, nor shall waste oil be used except with the approval of the bureau of safety engineering.

Section 6. The tests and investigations made by the department of buildings and safety engineering shall be of the nature of, suitability of material, strength of parts, electrical control, thermostatic arrangement, sensitiveness of automatic features, positiveness of ignition, safeguards against flooding, possibilities of explosion and hydrostatic or pressure test of storage tanks.

Section 7. Oil burners shall be equipped with such approved device, mechanical or electrical, which will automatically prevent the overflowing of fueling of the burner. Burners shall be designed to prevent excessive carbonization and shall be securely attached and supported.

Section 8. All burners subject to this act must be provided with permanent automatic device, so designated that oil, upon being turned into the combustion chamber, will become ignited or automatically shut off.

Section 9. Standard full weight wrought iron, galvanized iron or steel or copper pipe shall be used throughout underground piping shall be galvanized or copper or brass. The supply pipe or pipes shall not be less than one-fourth inch in diameter. Unions shall be ground type with conical seating with faces of metal. Flanged joints shall not be used.

Valves shall be constructed so that the stem cannot be withdrawn by continual operation of hand wheel. A packing gland shall be provided with a separate shouldered unthreaded nut having a beveled contact space for the compression of the

packing. All threaded joints shall be made with glycerine and hitherto, or other approved compound. All pipes shall be rigidly supported and protected against mechanical injury. Gas supply pipes must be provided with shut-off valves.

Section 10. Electrical installations used in connection with oil burning devices shall be installed in accordance with the rules adopted by such city and be inspected and approved by the department of buildings and safety engineering.

Section 11. No damper shall be permitted in the smoke pipe or chimney from the device heated that may restrict to a dangerous extent the passage of fumes or gases. Ventilation shall be provided to prevent the accumulation of any trapped vapors below the combustion chamber. Complete instructions in regard to care and operation of the oil burning equipment shall be posted near the apparatus installed. The instruction sheet so posted shall include the limitations for the gravity and limiting flash point of oil suitable for use in the burner. All instructions must be posted at time of installation. Near the entrance to the furnace room, and so located as to be convenient for use in emergency, there shall be provided a suitable hand extinguisher of approved type.

Section 12. Oil storage tanks on the inside of any building shall be located in the lowest story, cellar or basement. A total storage of five hundred fifty gallons shall be permitted in any building, but not more than two hundred seventy-five gallons shall be permitted in any one storage tank. Where more than one storage tank is installed such tanks shall be connected to the main feed pipe leading to the auxiliary tank, or if no auxiliary tank is used, such storage tanks shall be connected with the main feed pipe leading to the burner, with a manually operated three-way valve so that not more than one tank can in any way discharge directly to the fuel oil burner or burners through approved auxiliary tank.

Tanks shall be welded, brazed or riveted. The tanks shall be reinforced with a welded or riveted part or flange and are connected by made tight and tested at five pounds air pressure and with water without showing leaks. Tanks shall have rigid and incumbrance support and shall not be hung from any fire or combustible floor. Glass gauging devices, or any others, the breakage or escape of contents of which will permit the escape of fuel oil, shall not be used. Fuel oil shall not be forced from such storage tanks by positive air pressure.

Section 13. The fill pipe for such tank or tanks shall be galvanized iron or steel not less than one and one-half inches in diameter, extending to the outside of any building, and shall be properly capped at all times. All storage tanks for fuel oil shall be provided with a vent pipe not less than three-fourths inch in diameter with a return bend on the open end exposed to the outside of any building, and shall be covered by a non-corrodible wire screen of thirty by thirty mesh; Provided, however, that vent pipe of such storage tank installed above ground shall terminate on the outside of the building, not less than ten feet above the source of supply, and that vent pipes from underground storage tanks outside of any building shall not be less than one and one-fourth inches inside diameter and shall terminate not less than two feet above grade line. The vent pipe from two or more tanks may be connected to one upright provided they be connected at a point at least twelve inches above the source of supply.

Section 14. Except as otherwise permitted in this act, the storage of fuel oil in excess of five hundred fifty gallons shall be outside of any building, in underground tanks. Storage of oil in tanks above ground of more than five hundred fifty gallons shall not be permitted without special permit from the board of rules of the department of buildings and safety engineering.

Section 15. Tanks located underground shall have the top of tank at least three feet below the surface of the ground, and below the level of the lowest pipe leading into the building to be supplied. Tanks may be permitted underneath a building if burning at least three feet below the lowest floor or they may be placed twenty-four inches below the lowest floor and covered with fifteen inches of earth and nine inches of brick or concrete.

Section 16. Where it is impractical to bury tanks, the chief inspector of the department of buildings and safety engineering may allow them to be installed inside of a building when completely incased in twelve inches of concrete and six inches of sand.

Section 17. Underground tanks located within ten feet of a basement or pit lower than the top of such tank, shall be completely incased in six inches of concrete of a one, three and five mixture.

Section 18. Measuring devices on tanks beneath buildings and previously described enclosed tanks, shall be of approved wall gauge type.

Section 19. The metal used in all tanks shall be of a minimum gauge, U. S. standard, depending upon the capacity or size as given in the following table:

Capacity (Gallons)	Thickness of material
1 to 500	14 gauge
501 to 1100	12 gauge
1101 to 4000	11 gauge
4001 to 10500	10 gauge
10501 to 20000	8-10 inch
20001 to 30000	1/2 inch

Section 20. All such tanks shall be welded, brazed or riveted and shall be heavily coated outside with asphaltum or other rust-resisting material. All tanks shall be tested for leakage and shall be tight at five pounds air pressure. All tanks having a capacity in excess of two hundred seventy-five gallons shall bear the underwriter's label.

Section 21. All oil burners operating by gravity or water pressure, shall be equipped with approved automatic device or devices for the control of the flow of oil in case of failure of the oil to properly ignite. All oil burners of the suction or forced feed type shall be equipped with ap-

proved anti-siphoning device. Where a pump is used between the storage tank and the burners, a back pressure relief valve shall be installed in the supply line, so arranged as to return any surplus oil to the storage tank. Suction pipes must extend to within not less than two inches from the bottom of the tank and must be provided with an accessible control valve inside the building between the tanks and the burner. All pipe connections, except for gravity flow, shall be made from the top of the tank.

Section 22. All fuel oil burners used in connection with hot water and steam heating systems shall be equipped with a pressurestat or some approved automatic device to reduce or extinguish the fire in the event of undue pressure within the boiler.

Section 23. The use of acetylene on any other gas possessing a wider range of explosiveness in admixture with air than coal gas, or water gas, is prohibited for use in the gas pilot of any fuel oil burner.

Section 24. This act shall not apply in the case of manufacturing plants except for heating buildings or generating steam for a period of not more than ninety days, or by both such fine and imprisonment, and each day that a violation of this act shall be permitted to exist shall constitute a separate and distinct offense.

This act is ordered to take immediate effect.

Lorane Sparks, C. W. Olson, Clerk, President.

TOO MANY BLACK BEARS  
Presque Isle county is having a lot of trouble with the black bears in that section. Conservation officers are kept busy responding to calls from farmers who have had a sheep or other farm animal killed by these marauders.

A bear was trapped there last week by officers, which dragged a heavy log two miles into a swamp, where it was overtaken and killed. It weighed 400 pounds. One day the first of last week, a man saw a bear enter Grand Lake for a swim. Getting into a boat they chased him across the lake, enjoying a lot of thrills.

HE HAD A BOTTLE  
By THOMAS ARKLE-CLARK  
Dean of Men, University of Illinois.

They were talking about England and what that small country has accomplished in power and influence.

"What one thing has helped more than anything else," one of the older men asked, "to put England where she is today?"

"The boy to whom the question was put thought a little while seriously and then answered:

"Respect for law, I think."

He was quite right. No one who has kept his eyes open in London, Washington or Paris, can help be impressed with the reverence of the Englishman for the law and for those who are delegated to enforce it. A policeman in America is often a joke and a byword. In England he is respected, loved almost, and his raised hand is the hand of God. He is the friend of children and of the crippled and the unfortunate; he is a haven of safety for strangers and his word puts an end to disturbances of every sort.

Three men were sitting in the observation car as I rode up to Minneapolis. They were beyond middle age; they were evidently experienced, and I gathered from their conversation that they were officials of the road.

As we rode along they pointed out the one to the other, where changes should be made, where some authority had perhaps made errors in carrying out regulations. A freeman, looking on as we waited in a waiting point, was waiting coal and breaking some regulations evidently, which had been laid down for his guidance. One of the men took the number of his engine, and I knew that some one would sooner or later hear about the dereliction. Law should be obeyed.

The oldest man of the group rose, finally, to go to his compartment. "What did you do with my overcoat?" he inquired of his companion.

"I have a bottle in the inside pocket and I shouldn't want it broken," he winked knowingly at the other man and whispered something interesting into his ear, and they went off together. I had seen him the night before sitting half drunk in the smoking room, mumbling incoherently, a glass of liquor in his hand too stupefied with drink to set the glass down or to finish its contents. No one better than he could realize the danger of one of his engines or freemen or freemen violating the prohibition law, but for him it was no right, the matter of a joke in fact. His attitude explains a lot of anomalies in American life. We do not respect law, though we expect the other man to do so. We want ourselves to cling to the forbidden bottle.

I talked to a young fellow a few days ago who had violated a well known college regulation and had knowingly and intentionally done so. "Well," he said in extenuation of his dereliction, "every one violates law, some time. You do, don't you?" I don't see why I should be better than the rest, especially when the majority of the fellows get away with it."

He could not see the ill-fight of his argument. He simply wanted his bottle in spite of prohibition.

(A 1918 Western Newspaper Union.)

## GIVES LABORERS VACATIONS

Edward G. Soubert, president of the Standard Oil Company (Indiana), who last March succeeded Col. R. W. Stewart as its chief executive, has just announced a new vacation plan for that company which is attracting wide attention.

Whereas in most companies vacations are given only to salaried workers, Mr. Soubert's administration has given them also to hourly paid workers on a basis of one week's vacation after five years of employment, and two weeks after ten years. The new plan affects 5,000 employees scattered over ten states of the Middle West. With 6,000 salaried workers already receiving vacations, the company will now have 11,000 on its vacation list.

The company's hourly paid workers had been asking for vacations for more than ten years but their plan had been repeatedly denied by the previous administration on the grounds of impracticability. "For being impracticable," declared Mr. Soubert in announcing the new plan, "we expect to get an appreciable return from it through increased loyalty."

MUST HAVE LICENSE TO TRAP MUSKRATS  
The first of the three seasonal muskrat seasons begins in the upper peninsula, Friday, November 1.

The northern part of the lower peninsula season begins 15 days later and the season for the southern third of the state, December 1.

This year the state has been divided into three regions with the muskrat season opening and closing on different dates for each region. The upper peninsula season is from November 1 to November 30th inclusive. For the district of the lower peninsula north of the line of Township 16 and West of Saginaw Bay the season is November 15th to December 15th inclusive. For the district south of the north line of Township 16 and East of Saginaw Bay, the season is December 1 to December 31 inclusive.

Under a new state law a metal tag with the name and address of the owner must be attached to each trap. The muskrat trapping license fee is \$1 for 20 traps and 40 cents each for more than 20 traps not in excess of 100 traps.

It is unlawful to "destroy," disturb or molest house or hole, or set trap within six feet of house or hole.

Licenses to trap muskrats are sold this year through the various county clerks.

WHERE DO YOU STAND?  
On a billboard in the city of Louisville, Ky., are these words: "Just what you think of your home town is your home town's opinion of you."

There's so much truth in that that it wants to ask every Howard City citizen to think it over. Take the men of your acquaintance; look them over. If they are boosters, if they have faith in their home town and love it, what does their home town think of them? On the contrary, if they are natural-born or self-made pessimists, what does their home town think of them? When a fellow loses faith in his country, when he gets so he can see nothing but the handicaps of his home town, when he does nothing but kick and nothing to promote the progress of his home town—how can he expect the love, or even the respect of its citizens?

If you are not satisfied with your home town, or if you have the idea that it could be made better, then why not make your criticism constructive? Public remedy for the ill you point out? If you want to take the lead in anything in the way of improvement you can always find someone willing to help. But don't find fault without suggesting a remedy. That's unfair to both yourself and your town and will neither help the town to be better nor elevate you in the estimation of its citizens.—Howard City Record.

## CAREFUL DIET PREVENTS CANCER

Cancer which at one time was largely an affliction of the aged is now manifesting itself in early youth. Dr. William F. Koch, famous biological chemist and cancer specialist of Detroit, warns in his new book "Cancer and Its Allied Diseases", and in view of this situation he urges close attention to diet as a means of prevention and treatment.

"Twenty years ago," Dr. Koch stated, "cancer was generally encountered in those who had passed the sixties; in the last decade the forties presented a high percentage, and now we find it fairly common in the twenties and in the teens."

Proper eating, exercise, colon hygiene to prevent the accumulation of poisons and healthy mental habits play an important part in fighting cancer, Dr. Koch avers. A poison or toxic condition exists before the cancer cells appear. Dr. Koch holds, and one of the greatest contributory causes is the collection of poisons due to constipation, and the absorption of these poisons by the body.

A toxic condition manifests itself in various ways, such as dizziness, sudden and periodic loss of muscle control, neuritis, inward goitre, diabetes, gastric ulcers, blindness, and insanity. These manifestations should be regarded as warnings of cancer, Dr. Koch declares.

As diet plays an important part in the prevention and treatment of cancer, Dr. Koch urges the consumption of whole natural foods as against the refined or processed foods.

"Food should be eaten raw whenever possible," Dr. Koch states. "Cooking destroys the chemical structure of such essential factors for life maintenance as vitamins. The green vegetables and fruits offer all that is necessary in this respect. Whole food, as is supplied by natural raw food in the form of vegetables and fruits, moreover supplies certain digestive advantages."

White flour breadstuffs should be scrupulously avoided, he warns. Little meat should be eaten, Dr. Koch states. If meat is taken, it should be mammalian, such as beef, pork, mutton, or venison, he said. Beans, peas and cereals can be used as substitutes for meats as they contain all protein material needed for good body chemistry, Dr. Koch points out.

DIPPING INTO SCIENCE  
Sleep Walkers  
Sleep walking occurs usually in highly sensitive or neurotic individuals, caused by ill health or over-eating. The sleep walker is usually seen during the first part of the night. Generally he cannot hear ordinary sounds, does not see, and can neither taste nor smell. When he awakes, if anything is remembered it is remembered as a dream.For Everyday Wear  
The dress is made of navy blue silk poplin, trimmed with a blue and white polka dot collar. It is made with a belt and the skirt is pleated. Dark hose and patent leather shoes are worn.

PONTIAC BIG SIX 1932

PRODUCT OF GENERAL MOTORS

NOT NATURAL TO THEM  
A cigarette advertisement in which a woman was shown as smoking, which appeared in a Woman's club magazine in Illinois, roused the ire of the ladies belonging to the club. The magazine was disowned.

We cannot get very excited about women and tobacco. Smoking is a bad habit with women and it will soon go out of style. In fact, it is already passing out.

Man is a smoking animal. Women is not. It is not good for women to smoke. They are learning that. Smoking effects the complexion. Only those who have reached the age where the color of the face does not count for much—will take a chance on a very intensive use of tobacco.

The use of the weed by women is nothing new. When the nation was young women used snuff. That was an ordinary habit and a funny one. Other ladies used to sit behind the stove and smoke a clay or copper pipe. They do not yet in some parts of the country. But on the whole women and tobacco have had little to do with each other and will have less as styles change. Grand Rapids (Minn.) Herald-Review.

Peas for Little Tots  
Peas are a well-beaten egg and one and one-third cups of flour sifted with a few grains of salt. Add one-fourth teaspoon lemon extract and roll very thin. Cut in small rounds, press a peanut in the center of each and bake in a shallow oven, 300 degrees F., for eight to ten minutes.Peanut Butter Pleases  
Mothers, too, like peanut butter combinations, for they are rich in food value and easily prepared. Here are a few peanut butter recipes which are just the thing for the little tot's tea.

Peanut Butter Wafers: Cream one-half cup butter with one half cup canned peanut butter; add one half cup sugar and cream again.

Peanut Butter and Honey Sandwiches: Slice and butter white bread. Spread half the slices with peanut butter and the other half with honey. Put the pieces together, press firmly and cut in appropriate sizes.

Fruited Peanut Butter Sandwiches: Mash a banana and cream with enough peanut butter to make an easily workable paste. Moisten with lemon juice, spread on buttered bread and cover with another slice of buttered bread.

**Zippers** for the whole family. Made by Goodrich, and first quality at lowest prices.

**Heavy Wool Sox** Largest assortment in town.

**Olson's Shoe Store**  
PHOENIX AND IRON CLAD HOSIERY

## Upson Fibre Tile

Now every home can afford a colorful nursery, laundry, the bathroom, tiled bath and kitchen. COLOR—the magic key to a cheerful home. Cheerful color for the kitchen, where the average woman spends a third of her day. Bright, joyous, delightful colors for

rooms so often neglected heretofore. Now UPSON FIBRE-TILE will bring you those colorful tiled walls so much in vogue—at surprisingly low cost—only 1-10th as much as ceramic tiling.

Take time to look into this and ask for samples.

## Superior Quality Paints

**Gloss Interior** ENAMEL FINISH costs less and combines beauty and perfect service. In B. P. S. Gloss Interior Enamel Finish we offer an easy working product that can be applied with the same effort and time as ordinary paint—but the results obtained are so superior that this finish is placed in a class by itself. Follow the directions and we guarantee satisfaction.

**Washable Flat Finish** for interior walls and woodwork. Although absolutely flat has a glass-like sheen, which makes it slow to soil and easy to wash clean.

We personally guarantee this to be fresh paint and therefore easy to stir. This is a very important point in flat paint.

## Linoleum Lacquer

A pure water-white lacquer made especially for linoleums and floors—it expands and contracts with linoleum without cracking or peeling.

## Sorenson Bros.

The Home of Dependable Furniture.

## News Briefs

THURSDAY, OCTOBER 31, 1929

Winter apples. See advertisement on page 2. B. C. Gilbert.

Misses Alyce and Mary Mahneke spent the week end in Detroit.

Wesley LaGrow is home from Detroit for an indefinite length of time.

Don't forget, Saturday, Nov. 2 is Levine dress day at Cooley's Gift Shop.

Warm dry feet is good health insurance. Prices reasonable at Olson's.

You are invited to attend the card party Friday night at the I.O.O.F. Temple Theatre.

Mrs. A. F. Gierke is visiting her daughter Mrs. Leo Jambert in Detroit for several days.

Mrs. Andrew Smith of Saginaw visited at the home of Mr. and Mrs. Nick Schjotz over Sunday.

Mr. and Mrs. Arnold Burrows, son Myrton and daughter Ruth spent a couple of days this week in Flint and Bay City.

Mrs. John Charlefour returned yesterday from a few weeks in Eaton Rapids where she was visiting her son Colburn and family.

Mrs. Rasmus Jorgenson returned home Sunday from a two weeks visit at the home of her daughter Mrs. Ralph Warner in Detroit.

Mr. and Mrs. Frank Smith and son Casper of Flint visited Mrs. Smith's brothers, William and James McNeven and their families over the week end.

An anthem and a quartet at the morning service and a duet at the evening service is the program of the choir at Michelson Memorial church next Sunday.

Your attention is called to the sale advertisement of Mac & Gidley, that appears on another page of this paper. Read it over, and then stock up for future use.

The Mercy Hospital Aid Society will meet next Thursday afternoon, Nov. 14, at the home of Mrs. Marius Hanson. Mrs. Hanson will be assisted by Mrs. Charles Tromble and Mrs. Louis Herbison.

A chimney burning out at the Albert Hoffman home Tuesday afternoon called out the fire department. The house was owned by A. J. Nelson and as a result of the fire will need a new chimney and repairs to the roof.

Mrs. Clair Smith and little daughter Betty Jane of Lansing are visiting at the home of her parents, Mr. and Mrs. James McNeven for a few weeks. Mr. Smith accompanied his family here going farther north on a fishing trip.

Members of the Thomas Cassidy family enjoyed a happy family reunion last Sunday at their home. Besides those living in Grayling, there were present from out of the city Mrs. Victor Thelen, Miss Margaret Cassidy, Grand Rapids, and Sister Mary Pancretia and Mrs. Henry Ahman of Saginaw.

The Epworth League held their regular monthly social gathering Monday evening at the Michelson Memorial church. There were 30 present and Alton Jarmen, the fourth vice-president was in charge. Last week the League held a cabinet meeting at the parsonage at which business matters for the coming quarter were discussed. A pot luck supper was served before the meeting.

Another house painting job that we wish to call attention to is that of Joseph Smith next to the Jappe Smith gas station. The heat of paint and oils and honest, first class workmanship is what we put into our work. If you are planning to have any painting done, consult us. Just like all our patrons you will be more than satisfied and pleased. The Geo. McCullough and O. P. Schumann residences also are well known residences we painted. Roby & O'Berg, painters.

Mrs. Axel Larson entertained her club last Thursday afternoon when a special meeting was held. The club elected their officers as follows: President, Mrs. LeRoy Scott vice Pres., Mrs. Russell Vallad; Sec. Treas., Mrs. William Laurant. Prizes were won by Mrs. Neal McDaniels, and Mrs. Chas. Harvey won the penny prize. Mrs. Larson and committee served lunch on small tables that were arranged throughout the house. The Club will meet with Mrs. Herbert Stephan this Thursday.

Will Hoffman is the envy of just about every other young boy in town, as he won the guessing contest at the Hanson Hardware and won a fine new BB gun as a reward. The problem was to guess the number of screws in a glass container. Saturday morning at 10 o'clock about 150 youngsters gathered at the hardware store to witness the count. The jar contained 313 screws and Will's guess was 315. A very close guess, indeed. The contest created a lot of interest and excitement and it kept the clocks busy recording the guesses. "Spike" says it was just a sport to watch the interest of the kids. Hoffmann walked off with the coveted prize and, for the day at least, was the envy of his friends.

Wednesday forenoon with Dr. Keyport, Dr. Clippert and Mrs. Gorman, school nurse in charge, 250 children received their first dose of toxin-antitoxin, as immunization against diphtheria, which is being given at the school building. This fine response to the efforts of the local physicians and school nurse, no doubt is very much appreciated. Besides those of school age there were a large number of children of pre-school age, who were brought by their mothers for the purpose of receiving the toxin-antitoxin. It took but three hours to take care of the 250 present. Next Wednesday the second dose will be given and mothers are asked to please remember to bring the children at that time and between the hours of 8:00 and 11:00 o'clock.

*Modish, Always—  
Moderately Priced, Ever*

## DOLLS GIVEN AWAY!

AT  
**Mac & Gidley's**

The Rexall Store

These Dolls are valued from \$2<sup>00</sup> up to \$18<sup>00</sup>

We are going to give them to the fifteen little girls receiving the largest number of votes between November 12th and 10 o'clock Tuesday evening, December 24th. The awards will be made Christmas morning at 10 o'clock.

For each penny spent at our store during the period stated above, each customer will be entitled to a vote. Ask all your friends to write your name on the ballot before they put it into the Ballot Box in our store.

### CONDITIONS

- 1—No girl over 12 years old may be entered.
- 2—Only one nomination blank to be placed to the credit of each contestant.
- 3—Any piece of paper may be used as a ballot. Every ballot must be stamped by the proprietor, or one of our sales force, before being deposited in the Ballot Box.
- 4—No contestant shall solicit votes of customers while in the store. No Ballot Blanks to be taken from the store.
- 5—No Ballots may be deposited in the Ballot Box before November 12th or after 10 o'clock Christmas Eve.
- 6—No Ballots will be given except at actual time of sale. Do not ask for them at any other time.
- 7—Any Ballots showing traces of any change in number of votes marked will be destroyed without being counted.
- 8—In the event of a tie for any prize offered, a prize identical with that tied for will be awarded to each tying contestant.

Come in any time after November 12th and see the beautiful dolls. Ask any questions you wish about the contest, because we're glad to have you do so.

You Are Entitled to a Vote with Every Penny You Spend in Our Store

## The Best in Baked Goods

Learn for yourself how good our baked goods are, and then you will no longer spend the time doing your own baking. Bread, pies, cakes, rolls, cookies, in fact, all sorts of baked goods, as good as you can bake them yourself.

Phone 16 **Grayling Bakery** A. R. Crist Prop.

### THE REPORT CARD

(Continued from Page 1)  
 It will be as big a success as any other school in the state.

**Grayling vs. Alpena**  
 Word has just arrived that the Grayling debaters will meet their opponents at Alpena on Friday evening, November 15th. Our team will have the negative side of the question, "Resolved that a Judge or Board of Judges should be substituted for the jury in all the trials in the state in the municipal courts of Michigan." Two good teams are being put into the field this year and hopes are high that we will come through victorious over Alpena.

**Interclass Tournament**  
 Freshman boys are champs! Last Monday after school the interclass basketball tournament started with the seventh and eighth grades. The eighth grade won, the score being 21-6.

After that game was completed the Seniors and Freshies played. Both classes had rooters out, regular friendly enemies. The Freshmen won by 7 points with a score of 17-10.

Tuesday at 4:00 the Soph. and Juniors played the Junior winning 15-9. The second game that day was played by the Freshies and eighth graders. The Ninth grade won a seemingly easy game—26-8.

Wednesday night the Freshies and Juniors played for the championship. Yeh, Freshies! What a score! 26-8. Thus ended the interclass tournament of 1929.

**Jokes**  
 Miss Lewis—Charles, name five animals that live in the north.  
 Toddy T.—Reindeer, Walrus, and three polar bears.

Marshall Sisco—I'd like to have you make a painting of me, but \$200 is too much.  
 Portrait Painter—Well, if you only

want to pay \$100 I will have the painting look more like you.

**Miss Lewis—Kenneth**, find the state of Mississippi on the map.  
 Kenneth H.—Sorry, Ma'm, it ain't showin' now, they're havin' a flood.

**Personals**  
 Ernest Lozon has resumed his studies in Grayling High.  
 Keith Wheeler was a visitor in school the latter part of the week.

Mary and Alice Mahneke spent the week end in Detroit.  
 Miss Hunter was in Lansing over the week end attending the homecoming at M.S.C.

Miss Lewis visited in Gaylord over the week end.  
 Elsie Johnson, Grace Parker, Margaret Warren, Elizabeth Matson, Anabel Harris, Mary Mahneke, Helen Lietz, and Clara Bugby are assisting Mrs. Gorman during the Touxin-anti-toxin clinic.

The Girl Scouts are contemplating a basketball team under the leadership of Miss Hunter who will act as coach.

The Science class held a contest last week in the form of an essay, the subject being "The Life and Works of Thomas Edison." Salmi Wallace won, having the best essay, with Elaine McDermott second. Great many fine essays were turned in on this subject.

### CARD OF THANKS

We wish to thank our friends and neighbors for their kindness and help at the time of our father's death.

Mr. and Mrs. W. H. Fairbotnam.  
 Mr. and Mrs. Herman Miller.  
 Mr. and Mrs. Albert Bentley.  
 Clarence and George Bentley.

The new VICTOR RADIO is here. Come in for demonstration. Central Drug Store.

# ONE SALE

## Thursday, Friday and Saturday

## November 7-8-9, 1929

### Wrapped Cream Caramels

In One-Pound Pkg., 50c

2 for 51c

### What is a Rexall One-Cent Sale?

It is a sale where you buy an item at the regular price, then another item of the same kind for one cent. As an illustration: The standard price of Klenzo Dental Cream is 50c, you buy one tube at this price and by paying 1 Cent more, or 51 cents, you get two tubes, and save 49 cents. Every United Drug Co. article in this sale is a high quality guaranteed product, just the same as is sold every day at the regular price. No limit—buy all you want, but on Thursday, Friday and Saturday only!

### All 1c Sale Purchases Must Be Cash.

We can't afford to charge merchandise purchased at these prices.

### A Profit-Sharing Method of Advertising

This sale has been developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full size packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice in profit is justified, because we know the goods will please you.
